Dear [REDACTED]

Response to your request for official information

Thank you for your request of 7 November 2018 under the Official Information Act 1982 (the Act) for:

*“Please supply the following information under the [Official Information Act (OIA) / Local Government Official Information and Meetings Act (LGOIMA)]:*

- 1. How many people are recorded as having adverse reactions to dietary supplements or herbal medicine over the past five years (2013 to date)*
- 2. How many product complaints about dietary supplementns or herbal medicine did Medsafe record over the past five years (2013 to date).*

*Please break down by year.*

- 3. Please include the type of adverse reaction and the type of supplement or herbal medicine.*
- 4. How many dietary supplement or herbal medicine recalls have there been over the past five years? “*

The Centre for Adverse Reactions Monitoring (CARM) receives cases of suspected adverse reactions associated with dietary supplements and herbal medicines. CARM groups these together under the heading of Complementary or Alternative Medicines (CAM). The table below contains the number of cases reported to CARM that fall under the CARM category of CAM:

Year	Number
2013	18
2014	33
2015	27
2016	37
2017	28
2018 (until 30 September 2018)	50

In response to part two of your request, the Medsafe database in which complaints and post-market actions are recorded does not include the provision to identify a product as a 'dietary supplement' or a 'herbal medicine', and so the actual number of complaints relating to dietary supplements and herbal medicines cannot be identified without significant research. As such, this part of your request is refused under section 18(f) of the Act.

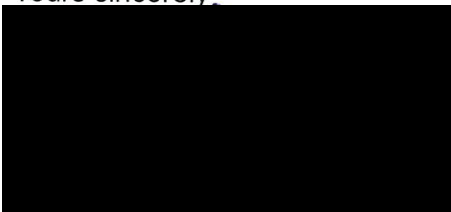

Information in response to part three of your request is attached as Appendix One. The attachment contains CAM reports received by CARM from 1 January 2012 to 30 September 2018. Some information has been withheld under section 9(2)(a) of the Act to protect the privacy of natural persons, and also section 9(2)(ba)(i) to protect information which is subject to an obligation of confidence, where the making available of the information would be likely to prejudice the supply of similar information.

In response to part four of your request, Medsafe has been involved with two recalls over the past five years relating to products which were either non-compliant dietary supplements, or marketed as dietary supplements. The term 'herbal medicine' is not defined in legislation, and as such we are not able to provide any data on how many products have been recalled which may be considered 'herbal medicines'.

Year	Number of Recalls
2013	0
2014	0
2015	1
2016	0
2017	1
2018	0

I trust this information fulfils your request. You have the right, under section 28 of the Act, to ask the Ombudsman to review my decision to withhold information under this request.

Yours sincerely,

**Group Manager  
Medsafe**
