

2nd December 2025

Dear Healthcare Professional,

NOTIFICATION OF TEMPORARY ALTERNATIVE PRODUCT SUPPLY

Pfizer New Zealand Limited (Pfizer) wishes to advise that, due to a delay at the manufacturing site, there will be intermittent supply of NORIMIN® 28 Day (3 blisters x 28 tablets) between now and late January 2026.

Presentation	Pack Size	Pfizer Item code	Pharmacode	Shortage start	Shortage end
Norimin 28 Day tablets (0.5mg norethisterone and 0.035 mg ethinylestradiol)	3 blisters x 28 tablets (84 tablets)	F000115173	410691	Now	Late January 2026

To ensure continuity of supply, a larger pack size of NORIMIN® 28 Day (4 blisters x 28 tablets) will be made available as a temporary alternative for patients.

Presentation	Pack Size	Pfizer Item code	Pharmacode	Available
Norimin 28 Day tablets (0.5mg norethisterone and 0.035 mg ethinylestradiol)	4 blisters x 28 tablets (112 tablets)	F000117123	2636077	Now

All pharmacological aspects of the two pack sizes of NORIMIN® 28 Day tablets are identical, and dosing instructions are the same. The blister foils are also identical (silver area containing active tablets and red area containing placebo tablets). The only differences are in the artwork and patient information documents. These differences are listed in the table below:

Category	NEW ZEALAND product NORIMIN® 28 Day	AUSTRALIAN product NORIMIN® 28 Day
Pack Size	3 blister strips x 28 tablets	4 blister strips x 28 tablets
Sponsor contact details	Pfizer New Zealand Limited Auckland, New Zealand	Pfizer Australia Pty Ltd Sydney, NSW, Australia
