

Substance	Country	Classification
Brompheniramine	Australia	<p>Prescription (Schedule 4): BROMPHENIRAMINE except when included in Schedule 2 or 3</p> <p>Restricted (Schedule 3) BROMPHENIRAMINE in oral preparations except: a) when included in Schedule 2; or b) for the treatment of children under 2 years of age.</p> <p>Pharmacy-only (Schedule 2): BROMPHENIRAMINE when combined with one or more other therapeutically active substances in oral preparations when: a) at least one of the other therapeutically active substances is a sympathomimetic decongestant; or b) in a day-night pack containing brompheniramine in the bed-time dose where the day and night doses are in the same immediate container or immediate wrapper, except in preparations for the treatment of children under 2 years of age.</p>
	Canada	<p>Brompheniramine and its salts:</p> <p>Unscheduled; in combination products for the relief of cough and cold symptoms</p> <p>Schedule III (equiv. pharmacy-only); as a single entity for the treatment of allergies</p>
Chlorphenamine	Australia	<p>Schedule 4: CHLORPHENAMINE except when included in Schedule 2 or 3</p> <p>Schedule 3: CHLORPHENAMINE in oral preparations except: a) when included in Schedule 2; or</p>

		<p>b) for the treatment of children under 2 years of age.</p> <p>Schedule 2: CHLORPHENAMINE when combined with one or more other therapeutically active substances in oral preparations when:</p> <p>a) at least one of the other therapeutically active substances is a sympathomimetic decongestant; or</p> <p>b) in a day-night pack containing chlorphenamine in the bed-time dose where the day and night doses are in the same immediate container or immediate wrapper, except in preparations for the treatment of children under 2 years of age.</p>
	Canada	Chlorpheniramine and its salts and preparations: unscheduled.
Cyclizine	Australia	<p>Schedule 4: CYCLIZINE except when included in Schedule 3</p> <p>Schedule 3: CYCLIZINE in divided preparations for oral use in primary packs containing 6 dosage units or less.</p>
	Canada	Schedule I (similar NZ prescription): for human use
Dexchlorpheniramine	Australia (Poisons standard lists cross reference to Dexchlorphenamine)	<p>Schedule 4: DEXCHLORPHENAMINE except when included in Schedule 2 or 3.</p> <p>Schedule 3: DEXCHLORPHENAMINE in oral preparations except:</p> <p>a) when included in Schedule 2; or</p> <p>b) for the treatment of children under 2 years of age.</p> <p>Schedule 2:</p>

		<p>DEXCHLORPHENAMINE when combined with one or more other therapeutically active substances in oral preparations when:</p> <p>a) at least one of the other therapeutically active substances is a sympathomimetic decongestant; or</p> <p>b) in a day-night pack containing dexchlorphenamine in the bed-time dose where the day and night doses are in the same immediate container or immediate wrapper, except in preparations for the treatment of children under 2 years of age.</p>
	Canada	Schedule III (equiv. pharmacy only)
Diphenhydramine	Australia	<p>Schedule 4:</p> <p>DIPHENHYDRAMINE except when included in Schedule 2 or 3</p> <p>Schedule 3:</p> <p>DIPHENHYDRAMINE in oral preparations except:</p> <p>a) when included in Schedule 2; or</p> <p>b) for the treatment of children under 2 years of age.</p> <p>Schedule 2:</p> <p>DIPHENHYDRAMINE in oral preparations:</p> <p>a) in a primary pack containing 10 dosage units or less for the prevention or treatment of motion sickness; or</p> <p>b) when combined with one or more other therapeutically active substances when:</p> <p>i) at least one of the other therapeutically active substances is a sympathomimetic decongestant; or</p> <p>ii) in a day-night pack containing diphenhydramine in the bed-time dose where the day and night doses are in the same immediate container or immediate wrapper, except in preparations for the treatment of children under 2 years of age.</p>

	Canada	<p>Unscheduled; for topical use in concentrations of 2% or less when sold in containers of 300 mg or less of diphenhydramine hydrochloride.</p> <p>Schedule III (similar pharmacy-only); for topical use in concentrations or less when sold in containers of greater than 300 mg of diphenhydramine hydrochloride; except for parenteral or topical use.</p> <p>Schedule II (similar pharmacist-only); for parenteral use, for topical use in concentrations greater than 2%.</p>
Doxylamine	Australia	<p>Schedule 4: DOXYLAMINE except when included in Schedule 2 or 3.</p> <p>Schedule 3: DOXYLAMINE in oral preparations except:</p> <ul style="list-style-type: none"> a) when included in Schedule 2; or b) for the treatment of children under 2 years of age. <p>Schedule 2: DOXYLAMINE when combined with one or more other therapeutically active substances in oral preparations when:</p> <ul style="list-style-type: none"> a) at least one of the other therapeutically active substances is a sympathomimetic decongestant; or b) in a day-night pack containing doxylamine in the bed-time dose where the day and night doses are in the same immediate container or immediate wrapper, except in preparations for the treatment of children under 2 years of age.
	Canada	<p>Schedule I (equiv. prescription); when sold or recommended for use in the nausea or vomiting of pregnancy.</p> <p>Schedule III (equiv. pharmacy-only); except those sold for nausea and vomiting of pregnancy.</p>
Meclozine	Australia	Schedule 4:

		<p>MECLOZINE except when included in Schedule 2.</p> <p>Schedule 2:</p> <p>MECLOZINE in primary packs containing 12 or less tablets or capsules of meclozine for the prevention or treatment of motion sickness, except in preparations for the treatment of children under 2 years of age.</p>
	Canada	<p>Schedule I (equiv. prescription); for human use- when sold in concentrations greater than 25 mg per dosage unit.</p> <p>Schedule III (equiv. pharmacy-only); when sold in concentrations of 25 mg or less per dosage unit.</p>
Mepyramine (pyrilamine)	Australia	<p>Schedule 4</p> <p>MEPYRAMINE except when included in Schedule 2 or 3.</p> <p>Schedule 3</p> <p>MEPYRAMINE in oral preparations.</p> <p>Schedule 2</p> <p>MEPYRAMINE for dermal use</p>
	Canada	Unscheduled.
Pheniramine	Australia	<p>Schedule 4</p> <p>PHENIRAMINE except when included in Schedule 2 or 3.</p> <p>Schedule 3</p> <p>PHENIRAMINE in oral preparations except:</p> <p>a) when included in Schedule 2; or</p> <p>b) for the treatment of children under 2 years of age.</p>

		<p>Schedule 2</p> <p>PHENIRAMINE:</p> <p>a) in eye drops; or</p> <p>b) when combined with one or more other therapeutically active substances in oral preparations when:</p> <p style="padding-left: 40px;">i) at least one of the other therapeutically active substances is a sympathomimetic decongestant; or</p> <p style="padding-left: 40px;">ii) in a day-night pack containing pheniramine in the bed-time dose where the day and night doses are in the same immediate container or immediate wrapper,</p> <p>except in preparations for the treatment of children under 2 years of age.</p>
	Canada	Unscheduled
Promethazine	Australia	<p>Schedule 4:</p> <p>PROMETHAZINE except when included in Schedule 2 or 3.</p> <p>Schedule 3:</p> <p>PROMETHAZINE in oral preparations except:</p> <p>a) when included in Schedule 2; or</p> <p>b) in preparations for the treatment of children under 2 years of age.</p> <p>Schedule 2:</p> <p>PROMETHAZINE in oral preparations:</p> <p>a) in a primary pack containing 10 dosage units or less for the prevention or treatment of motion sickness; or</p> <p>b) when combined with one or more other therapeutically active substances when:</p> <p style="padding-left: 40px;">i) at least one of the other therapeutically active substances is a sympathomimetic decongestant; or</p>

		<p>ii) in a day-night pack containing promethazine in the bed-time dose where the day and night doses are in the same immediate container or immediate wrapper</p> <p>except in preparations for the treatment of children under 2 years of age.</p>
	Canada	<p>Schedule III (equiv. pharmacy-only); for topical use.</p> <p>Schedule II (equiv. pharmacist-only); except for topical use.</p>
